

According to DL no. 24 of 24 March 2022 "Overcoming the measures to combat the spread of the Covid-19 epidemic", as of 1 April, **access to accommodation and open-air catering services will be permitted without the need for any form of certification.**

It will also be possible to have access, without the need to show any certification, to indoor catering services, including indoor ones, within the accommodation facilities, reserved exclusively for the customers staying there. Furthermore, from 1 to 30 April, it will still be necessary to show the basic green pass to have access to indoor catering services if these are also accessible to the general public.
